***Response to Amendment***

1. Applicant's arguments filed on 9/13/2005 regarding claims 1-12 have been fully considered. Claims 1-12 are currently pending.

***EXAMINER'S STATEMENT OF REASONS FOR ALLOWANCE***

2. The following is an examiner's statement of reasons for allowance:

The present application relates to providing a method and system for operating SONET multiplexed communications, including the unique steps of "a time slot interchange circuit operatively coupled between the pointer and the pointer generator configured to generate at least one output signal pointer included in the SONET input and output signal paths, respectively, wherein the SONET input signal path further includes a synchronization buffer serially coupled to the pointer interpreter, the synchronization buffer being configured to transfer the input signal from a respective clock rate of the SONET input signal path to a respective clock rate of the time slot interchange circuit, and wherein the SONET output signal path includes a first-in first-out buffer serially coupled to the pointer generator, the first-in first-out buffer being configured to transfer the output signal from the respective clock rate of the time slot interchange circuit to a respective clock rate of the SONET output signal path."

The closest prior art, Diaconescu et al. (USP 6,738,395), discloses a SONET pointer processing system that provides timing adjustment on incoming data by converting the incoming data from a line clock domain to a local system clock domain. The SONET pointer processing system comprises a plurality of pointer processing strips, a time slot interchange TSI block for arranging STS-1 block in the format required at the pointer processing strips, wherein each of the

Art Unit: 2664

pointer processing strips or SYNC blocks comprises a pointer interpreter and a pointer generator.

However, Diaconescu fails to anticipate or render obvious the above quoted limitations of the present application. This renders the claims allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
